- Other: Git, GitHub, Heroku, Vi/Vim, Java Swing, Chrome API, Facebook API, Android SDK, Cisco CCNA Certified, Adobe, Microsoft Office Suite

### Experience:

Aresty Volunteer Developer	Sep 2015 – Present
I am currently creating a web app to enable students who perform research at Rutgers Aresty Research Center to publish articles about their work for the general public to read and understand	

Morgan Stanley High School Intern	Jul 2014 – Aug 2015
Worked at Morgan Stanley in the Enterprise Infrastructure department from July 2014 to August 2015 in New York, New York. Creating Python scripts to clean up and notify users of invalid or missing data within Autosys databases.	

HackBCA Web Developer	Nov 2014 – Mar 2015
Created registration website for hackBCA to collect data about attendees of the event. In addition created sign in system for day off event tracking, to ensure all participants were accounted for and create demographics about the event.	

NHS Volunteer Web Developer	Oct 2014 – Nov 2014
Created a tutoring site for my school's National Honor Society Club that easily allows students to find peers who can tutor them in a wide variety of subjects.
